

## Characteristics

- Indeterminate
- Early maturity (90 – 110days)
- Brown hilum seed
- Good shattering period
- Good tolerance to Rust & Frog Eye disease
- Good pod clearance for easy combining
- High Yielding potential of +4mt/Ha

### Recommended Zimbabwe Ecological Regions

	(I) - Specialised and Diversified Farming (>1000mm)
	(IIa) - Intensive Farming (750-1000mm)
	(IIb) - Intensive Farming (750-1000mm)
	(III) - Semi-intensive Farming (650-800mm)
